

Courses

- Clicking on the course card should open the enrol page of the course, which contain course descriptions, and a button to save the course or enrol into the course.
- If **student enrolls**, ask them for **basic information** and the **display a confirmation message** and **display a button** that says **continue to course**
- If course is **not free**, redirect them to a **purchase page**

Dashboard

- **No content displayed initially**, asides the **welcome message**
- On the header block, display **"Hello, Preferred Name or Surname"**
- For new users, replace the p **"You reached 76% of your goal this week! Keep it up to increase your results!"** with a simple message like **"Are you ready to be a champion? Get started"**
- The 3 card blocks showing Average score, Rank, and Achievements unlock should all be set to 0
- The badge card should not be clickable for new users
- Unless they are enrolled into a course, the course graph should not be displayed, or displayed a toast message redirecting to enrol into a course
- The same for the score record, the score record should also display monthly progress, or yearly progress for university users
- No data on the performance table for new users
- **The course data tap should automatically open the first tab "in progress"**
- Display no courses if user is not enrolled
- The upcoming card, should indicate course, quiz, and other important updates regarding the students studies
- The profile card shouldn't display any pictures till it's updated on the settings page
- Activity level should show users engagemnet level, how many times they visited the site or engaged with our content
- Profile card should display viewers, bookmarks and feedbacks
- It should also display a bio which must be updated from the settings page
- Link to the user's social media synced from the settings. The icons present should only be those which the student has linked
- Results tab should display no content, till they start taking quizzes

Tutors

- Allow users to book tutors
- Dont offer any contact details
- Clicking on tutor card should open a bio page about them
- Confirmation message when a tutor is booked, and the tutor will be notified via email to confirm booking,
- This booking may be for online tutoring or onsite
- The student continues to payment and pays to us
- We pay out the tutors commision once they confirm availability, if not, we reverse payment
- To maintain integrity, the tutor is only paid after 3 weeks

- Verified tutors are recommended first

Discuss

- A chat feature to discuss with friends, mentors and tutors

Iqlink

- A feed feature, if profile photo is updated from the settings, update it throughout the website including the IQlink
- IQ points are collected from liking, commenting and sharing IQ posts
- Student profile can be viewed by other users
- Allow students to post, these posts will be pending preapproval to confirmed from our end within 6hours
- Allow different kinds of reaction, but our basic reaction is "Answer" which makes us unique
- Allow comments with documents, images and text
- Display at most 2 preview comments if it is a reply
- Clicking the comment feature should let users see other comments and also have a text box to post comments
- The settings page on the trending card lets you select preferences

Settings

- Opening up the settings should automatically open the General settings
- Verify the profile pic width, height and storage

COURSE CONTENT

- The first page of the course shows course content
- The left card shows
 - Host logo
 - Course Title
 - Course Materials, a drop down which shows the weeks needed to complete the course; **when a week is completed, indicate a green fill/check on the empty grey div**
- The right card has the course content
 - An estimate of hours of videos, text and graded assignments
 - Learning objectives, please help check for bugs here; when it opens, it doesnt close, espeically for smaller screens
 - On the course material, each icon describes the course content either video, reading or quiz
 - Please check for bugs in the card, to ensure the links opens to the right tabs
 - Please **add a loader effect** when navigating through course content tabs
 - when videos play for upto 80%, check complete the grey tick beside the course content heading
 - Transcripts may be hard coded
 - Allow users to take Notes which are stored on the notes page
 - For reading content, the Mark as complete button should add a green check to grey div

Quizzes

- Each quiz will be graded on 100%

- Quizzes in a course will be weighted and all contribute to a final grade on 100%

For the quiz it self

- Quizzes will be divided into pages, sections or papers
- Each page or section will open with a loader
- Quiz 2 will display a toast message asking user to complete the first quiz or submit before they can continue
- If only one page quiz is done and that quiz is 30% of the final grade, even if user has a 100%, grade them on 30%
- When quiz is submitted, automatically show them their score and a next button
- Indicate if it's a pass or a fail, number of attempts left etc
- Limit the number of attempts to 3 every 7 hours
- For essays, allow users to submit text as well as pdf answers

Please double check the Notes Quill text editor, it doesnt work for all pages

Please also double check the js for responsiveness, some course content appears hidden on start
